Sociocracy 3.0: a Framework of Patterns for Agile Organizations

**Agile Organization:
Sustainably Creating
A Valuable Product
With Happy People.**

A Bit of History

Agenda

1. Transcending Hierarchy
2. Evolving Organizations
3. Organizational Structure
4. How Do We Get There

Transcending Hierarchy

The Problem With Organizations:
Individual Disciplinary Power
Inevitably Leads To
a **Dominance Hierarchy**

Paradox of Management

Hierarchies

Artificially Limit a System's Complexity

And Thus The Capacity of a System

To Address Complexity

Agile and Hierarchy: Culture Eats Strategy For Breakfast

How Can We Create An Organization Without Hierarchy?

**Give Decision Making Power
to Those Affected by a Decision**
strategy | product | plans | contracts |
role assignment | compensation | dividend
organizational structure | work process | ...

Circle

group of peers

temporary or permanent

makes decisions by consent

in person or by delegation

Circles Make Better Decisions:

more knowledge

more engagement

more creativity

more commitment

Consent

the absence of objections
everyone can "live with it"

good enough for now

safe enough to try

Maintain Equivalence: Avoid Discussion Facilitate Rounds

1. Pick a random person to start
2. Everyone speaks in turn

Evolving Organizations

We can already evolve Products,
Business Models and Work Processes.
Can We Continuously Evolve
The Whole Organization?

Let's Make Every Single Policy Decision an Experiment

Identify Motivation

Design Experiment

Commit to Run Experiment

Review and Evolve

1. Identify Motive The Driver

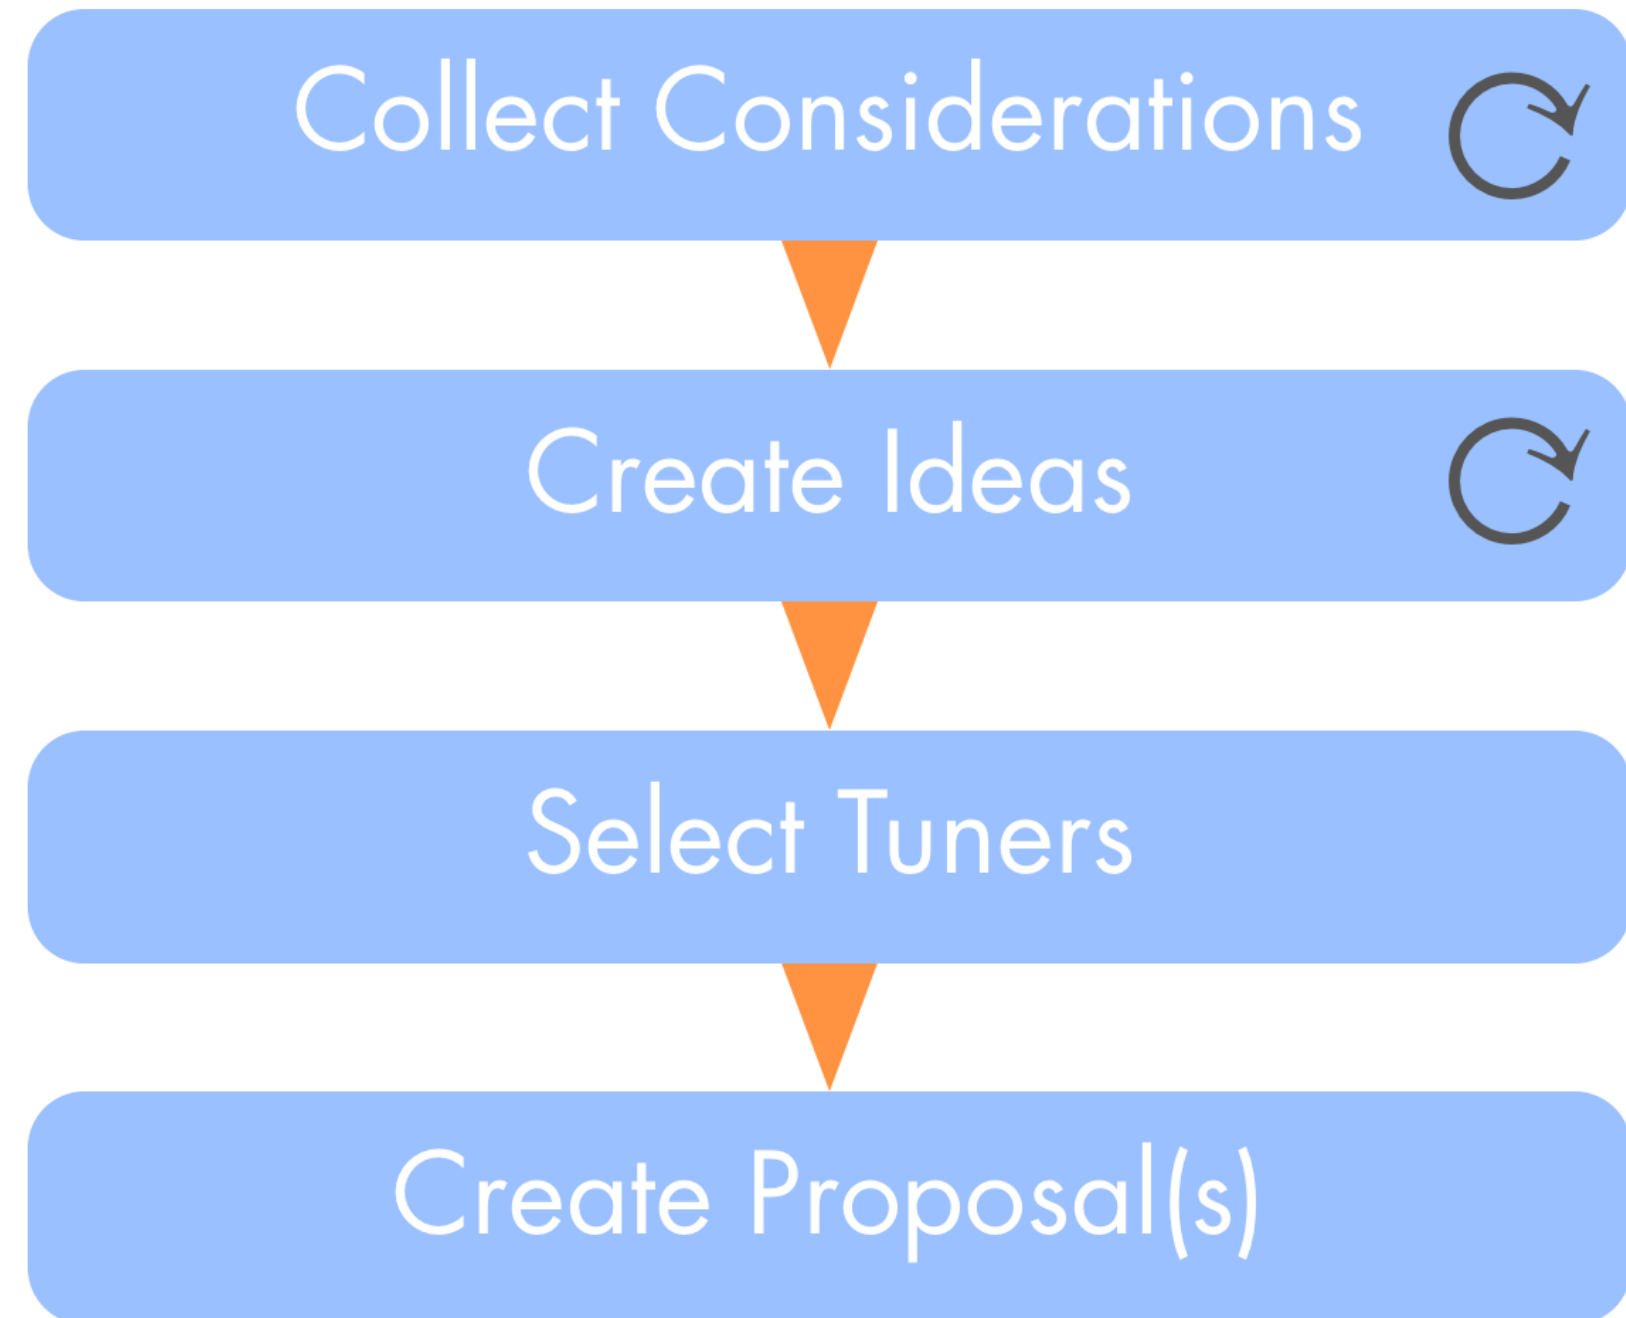

- shared motivation for action (the "why")
- situation ➤ needs
- replaces goals, aims, mission, vision, purpose
- easy to review

2. Design the Experiment

Proposal Forming

- collect considerations and ideas in larger circle
- create proposal(s) in small group

3. Commit to Run the Experiment:

Consent Decision Making

- collect objections from everyone affected
- objections reveal knowledge
- can you "live with it" until the review?
- "contract of consent"

Present Proposal

Clarifying Questions

Brief Response

Harvest Objections

Integrate Wisdom

4. Review and Improve

The Governance Meeting

- circle meeting at regular intervals
- each policy has review date and evaluation criteria
- tensions may trigger early review

People and Roles

- people can wear many hats
- role definitions are policy
- elect people to roles by consent
- elect for limited terms
- performance improvement process

Organizational Structure

- support effective collaboration
- delegate decision making power
- built from **circles**
- evolve continuously
- co-existence of different functional structures

Representatives a.k.a Links...

...stand for the interests
of one circle in another
circle

Double Linking

Facilitate two-way flow
of information and
influence

Nested Circle

A pattern for expanding functions

Delegate Circle

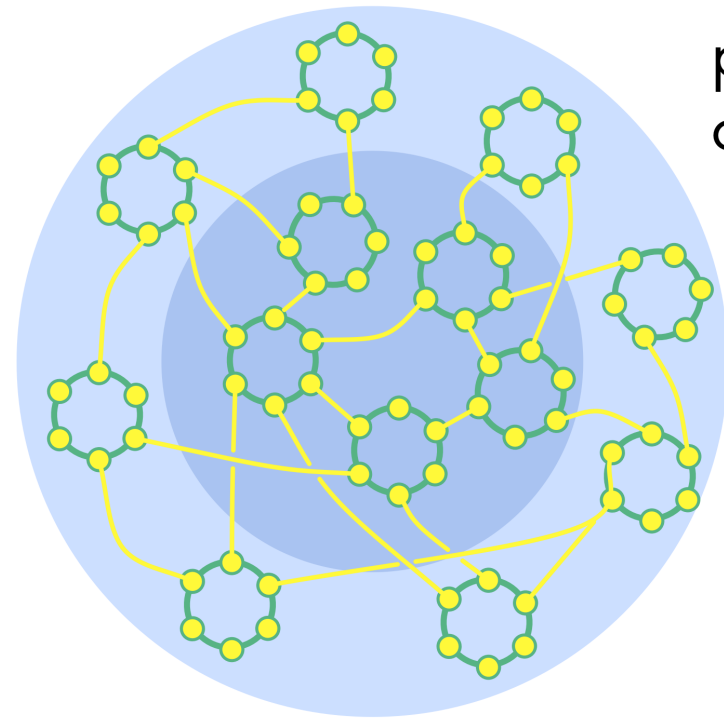

A pattern for
coordination

Service Circle

A pattern for
outsourcing shared
services

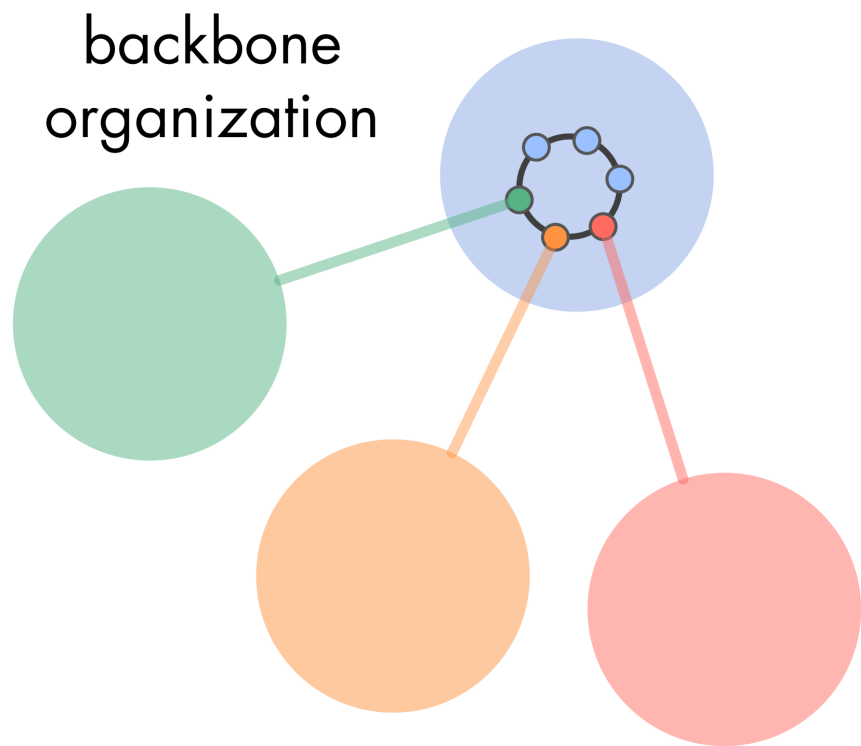

peach organization

double-linked hierarchy

backbone organization

fractal organization

How Do We Get There?

- revolutions break organizations (▶ Zappos)
- don't break what's already working
- meet everyone where they are

Create a Pull-System for Organizational Change

- trigger continuous improvement
- let them pull in patterns
- then expand the scope of the experiment

Context Is King
Patterns Are Just Ideas
Remix and Adapt as You Like
But Do It Together
And Evaluate the Outcome

More Considerations

- organizational values: make life so much easier
- legal: bylaws and consent
- entering and leaving an organization: agree early
- compensation and dividends: easier than you think

Now what?
